15. Other	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Purpose of Inspection:

The inspection was to determine if the site had been reclaimed.

Inspection Summary:

The Division issued a directive for the Permittee to reclaim the site. Upon inspection the Division and the BLM determined that the reclamation done on the site did not meet the minimum requirements for release. The Permittee needs to do additional work to the access to prevent unauthorized access. The piles of rock are insufficient to stop vehicles from entering the site.

The Permittee also needs to do some additional grading to eliminate steep slopes on the site.

Conclusions and Recommendations:

The Division and the BLM should work together with the Permittee to have the reclamation work completed.

Directions to Site:

The site is accessed by the Factor Butte road.

Inspector's Signature

A handwritten signature in blue ink, appearing to read "John Reay", is written over a horizontal line.

WHW:

John Reay, BLM

O:\M055-Wayne\S0550013-Organa\inspections\final.doc

Rock piles used to block access are insufficient to prevent access by vehicles.

Cut slope should be flattened.

Close up of step cut

Area has little if any vegetation.
